The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	Application No. 10/072,528	Applicant(s) POLESUK, ERIC	
	Examiner Robyn Doan	Art Unit 3732	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 11 October 2007.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

Applicant's response filed 10/11/2007 has been entered and carefully considered. Arguments regarding the 35 U.S.C. 103 (a) have not been found to be persuasive, therefore, claims 9 and 10 are rejected under the same ground rejections as set forth in the office action mailed 4/11/2007.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Conway (United States Patent No. 2,087,181).

Conway discloses a method of putting hair foil in a person's hair comprising removing a first sheet of hair foil from a pop-up dispenser, the sheet having a lead portion and a trailing portion with the lead portion extending through the dispensing orifice and the trailing portion overlapping the lead portion of the next hair foil sheet; and pulling the next hair foil sheet through the orifice of the dispensing orifice by withdrawing the first sheet; and applying the first sheet to a person's hair (see col. 1, line 36 through col. 2, line 14). Conway discloses the claimed invention except for the foil sheets having a width of 3.5 to 6 inches. It would have been obvious to one having ordinary skill in the

art at the time the invention was made to have the foil sheets 3.5 to 6 inches, since it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art. In re Aller, 105 USPQ 233.

Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leto (United States Patent No. 4,185,753).

Leto discloses a method of putting hair foil in a person's hair comprising removing a first sheet of hair foil from a pop-up dispenser, the sheet having a lead portion and a trailing portion with the lead portion extending through the dispensing orifice and the trailing portion overlapping the lead portion of the next hair foil sheet; and pulling the next hair foil sheet through the orifice of the dispensing orifice by withdrawing the first sheet; and applying the first sheet to a person's hair (see col. 4, lines 21-45 and figure 3). Leto discloses the claimed invention except for the foil sheets having a width of 3.5 to 6 inches. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have the foil sheets 3.5 to 6 inches, since it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art. In re Aller, 105 USPQ 233.

### ***Response to Arguments***

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies

(i.e., the spring and the weight of the paper) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

### ***Conclusion***

The drawings filed 10/11/07 have been approved by the Examiner.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
